

Ole Miss Maritime Message

Hi, from the gang at Ole Miss Marina. We all have been busy launching boats, cleaning up the yard, making dock repairs, and getting everything ready for another great year. It is nice to see everybody on the docks again.

Kevin is volunteering for the Mississippi River Clean up again this year. If you would like to help volunteer please sign up online at www.livinglandsandwaters.org. If you have any questions call Tammy Becker at 309-236-0725.

A reminder to all slip holders-please let the gas dock attendants know when you are leaving your slip for an extended period of time (weekends especially), so we have more availability for people to come stay at our marina and experience little Red Wing!

The stickers for the boats were sent out in the May newsletter. If you did not receive one or received the wrong color, please stop by the gas dock and exchange it. If you slip and store with us or are a Red Wing Resident you should have received a **RED** sticker, if you just slip or store with us it should be **BLACK**.

We just sent in the order for this years clothing to sell in the Ship Store. It should be arriving the beginning of June. Be sure to stop in and check it out!

At the end of the season last year we had an option to order and personalize clothing. If you would like to view an order form please stop down at the gas dock and pick one up. We will do two different orders with the first one due: JUNE 17th! Any questions? Call the Gas Dock.

This will be the last hard copy of the newsletter. We are working on creating a new website, when that's accomplished you will have the option to read and view the newsletter online. We will also have some copies available at the gas dock.

OLE MISS BOATER APPRECIATION PICNIC: JULY 22nd from 5pm-9pm at the Colvill Courtyard building. Come enjoy food from Randy's Restaurant and free beer sponsored by West End Sports Center.

Bathrooms at Bay Point/Water Inconvenience

Thank you for all your patience and cooperation with the water inconvenience at Bay Point which has slowed down some of our starts to the Summer. This years flood created more work for us and has altered our ability to meet everyone's needs. We appreciate everyone's patience and understanding.
